DETAILED ACTION

This Office Action is in response to an amendment filed 23 January 2009 in which claims 1-14 were amended. Claims 1-14 are pending, of which claims 2, 6-9, 13 and 14 have been withdrawn.

Election/Restrictions

1. Claim 1 is allowable. The restriction requirement among species, as set forth in the Office action mailed on 11 April 2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 6-9 and 13, directed to species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claim 14, directed to a non-elected species is withdrawn from consideration because it does not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Art Unit: 2872

2. This application is in condition for allowance except for the presence of claim 14 directed to species non-elected without traverse. Accordingly, claim 14 has been cancelled.

Drawings

3. Replacement drawings were received on 23 January 2009. These drawings are acceptable.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claim 14.

Allowable Subject Matter

5. Claims 1-13 are allowed.

6. The following is an examiner's statement of reasons for allowance:

Claims 1-13 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest a laser scan type fluorescence microscope including a laser light source,

Art Unit: 2872

objective lens, imaging lens, scanning means, pupil projection lens and detection optical system that also satisfies the conditional expressions as set forth in the claimed combination. It is further noted that the parfocal distance of the objective lens (D) is defined to be the distance from the sample surface to the objective lens shoulder as shown in fig. 3 and emphasized in applicant's remarks (see page 33, lines 12-14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
